

DENTAL CLEANING PAYMENT OPTION

An annual dental cleaning helps keep your pet's teeth and gums healthy while preventing painful dental disease. Regular cleanings reduce the risk of infections, bad breath, and tooth loss while supporting your pet's overall health.

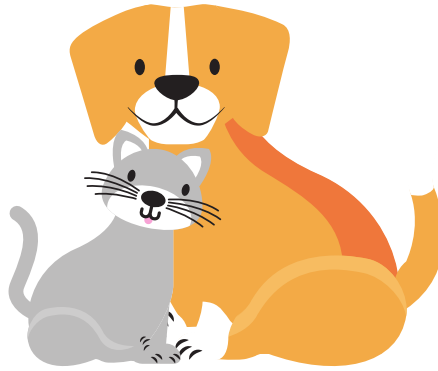

A dental cleaning costs \$495 at Elon Oaks Veterinary Hospital. This is a great value because we include services that many hospitals don't, including pre-anesthetic bloodwork, IV fluid therapy during the procedure, and dental x-rays.

We recognize that a family's budget is a consideration when deciding their pet's care. We want to make dental health accessible to more families and pets, which is why we're offering a monthly payment option.

How it works

On the day of the procedure, a downpayment of \$250 is required. After that, the monthly payment is \$35 for the following 9 months.

No credit check is required. We use Vetbilling.com to manage our payment plans. No interest is charged, but there are program fees built into the above payment structure. The final amount you will end up paying is \$565 (\$495 for dental cleaning + \$70 total in fees).

HOW TO APPLY

To apply for a dental services payment plan, you can submit an application online or in person at our hospital. The application can be found at <https://forms.petdesk.com/new/viueox> or by following the QR code below. You can also navigate to the application by visiting our website at www.elonoaksvet.com/dentalcare

All payment plans require two forms of payment (credit card, debit card, bank account), which cannot be connected to the same account (i.e. a debit card and its linked bank account).

PAYMENT PLANS FOR DENTAL EXTRACTION SERVICES

Depending on the extent of your pet's dental disease, dental extraction services may cost up to \$1600. Many families benefit from being able to divide up this cost into monthly payments.

We partner with VetBilling.com to offer in-house payment plans for qualifying applicants. The application requires a soft credit check that will not show up on your credit report.

A minimum downpayment of \$500 is required, but you may choose to make a larger downpayment to decrease your monthly payments. A non-refundable administrative start-up fee of \$25 is assessed to start the plan and a small fee (\$3) is added to each payment.

For this payment option, you must be pre-approved PRIOR to the day of your pet's dental service. You can apply today by visiting <https://forms.petdesk.com/new/viueox> or by following the QR code on this brochure.
